

**Inspector
MOO**
investigates...

This is Victor the Virus.
If he infects a healthy cow, it will get
a cough, sore eyes, a runny nose and
may produce less milk!

No.1 Victor the Virus

Inspector MOO

investigates...

This is Boris the Bacterium.
If he gets into a cow's system he
can cause nasty symptoms like a high
temperature, fast breathing and
a lot of snot! Yuk!

Moredun

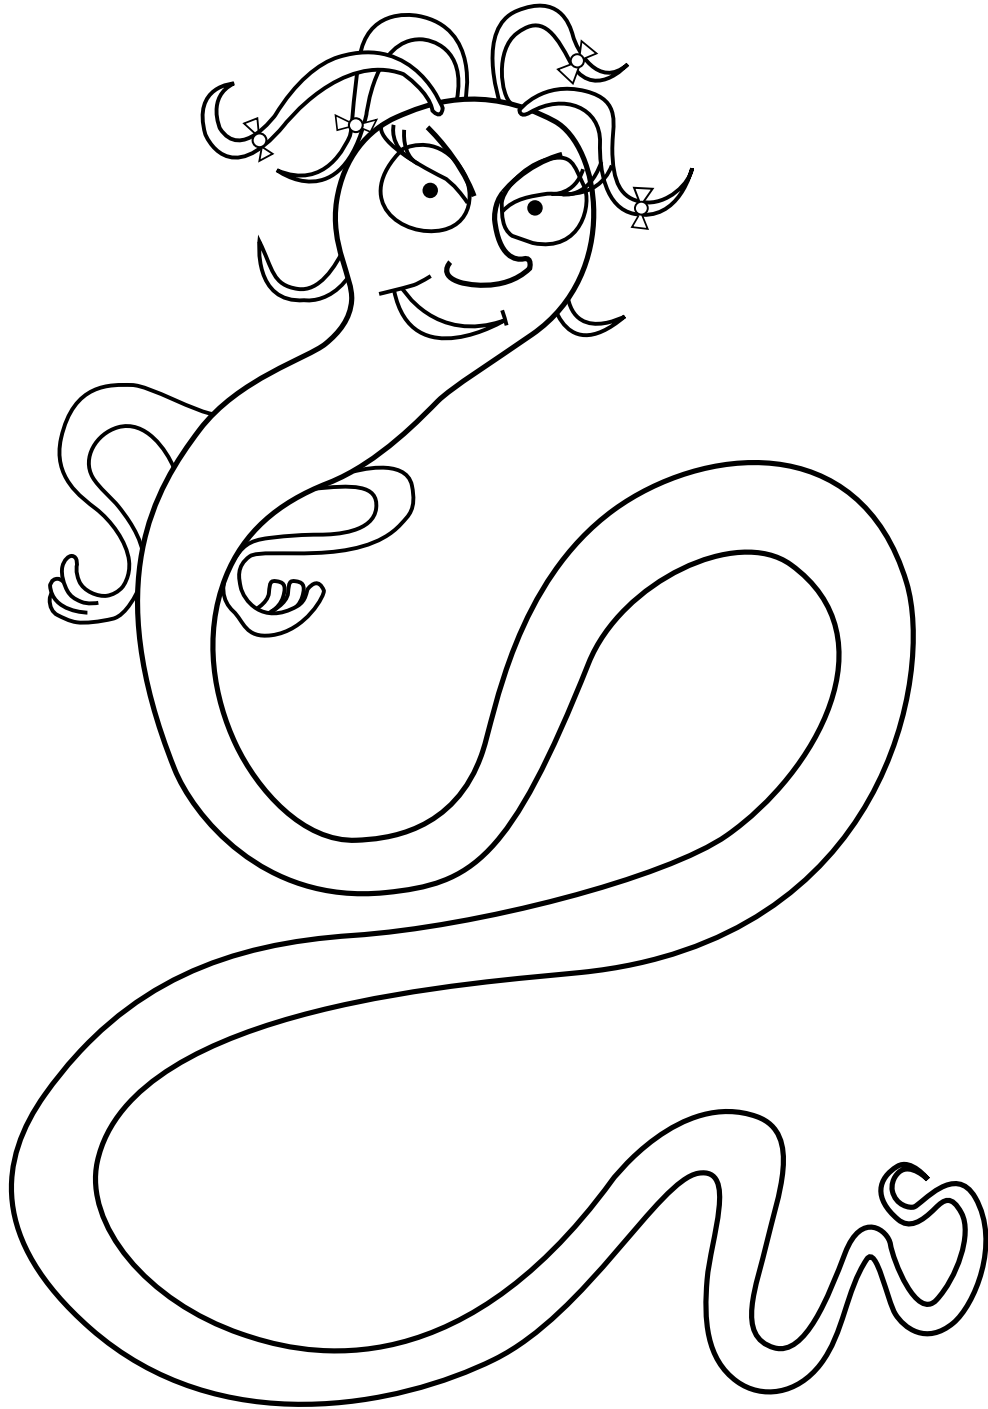

No. 2 Boris the Bacterium

Inspector MOO

investigates...

This is Pandora the Parasite.
She causes lungworm infection in cows.
If Pandora is joined by lots of her
lungworm friends, the cows can get
a fever, produce less milk and go
off their food!
