

**Harper Adams
University**

Moredun and Harper Adams invite you to join them in a Livestock Health and Welfare virtual event

On Wednesday 27th January 2021 at 10am – 1pm on Microsoft Teams Live

Follow the link to [Teams Live](#)

AMTRA have awarded 22 CPD points for this event. If you wish to register for points please contact Hannah Shaw at HShaw@harper-adams.ac.uk before the event and remember to sign in with your name at the event.

Presentations will focus on livestock health and include the development of diagnostic tests for disease control and in support of animal disease surveillance schemes, and the importance of a One Health approach in disease pandemics. After the presentations, there will be an opportunity to put your questions to the panel on the Q & A facility to learn more about novel tests and approaches to livestock disease control.

For further information please contact beth.wells@moredun.ac.uk
